Elizabeth Loeffler Lake: “At the beginning of yoga class while we were sitting in silence with our eyes closed, my instructor read a beautiful passage. I noticed a tear of gratitude roll out of the corner of my eye as it immediately connected me to camp. The passage is this:

How might your life have been different, if, through the years, there had been a place where you could go?

A place of women, away from the ordinary busy-ness of life.

A place of women who knew the cycles of life, the ebb and flow of nature, who knew of times of work and times of quiet, who understood your tiredness and need for rest.

A place of women who could help you to accept your fatigue and trust your limitations, and to know, in the dark of winter, that your energy would return, as surely as a spring.

Women who could help you learn to light a candle and to wait.

How might your life be different?

(excerpt from *Circle of Stones: Woman's Journey to Herself* by Judy Duerk)

As I was listening, all I could think about was how fortunate I was to have had the experience of many wonderful summers at camp. I know exactly how my life has been different because I had a place to go. A place that provided a secure environment to simply be and be understood. A place where I learned about myself and life from other women. There's no doubt in my mind that camp had a positive influence on my overall development.”

Page Neubert and Stephen Berger are delighted to announce the arrival of Louisa Jane Berger! Louisa was born on April 17, 2014. Stephen writes, "Mother and baby are in excellent health. Finn and Emma June can't wait to go meet their new little sister."

Congratulations to **Joy Spiller** and Andrew Norkin on the birth of their daughter, Noelle on December 21, 2013! **Joy** writes: Noelle will definitely be on the Wawenock list when she turns 10! I'm still teaching at Fryeburg Academy and Andrew is Director of Trails for the AMC. We're the outdoor family and it all started with me taking 'Trips and Trails' at camp! Thanks for the calendar, it certainly stirs the heart strings."
